

HOT Sheet

Alcohol Infused Whipped Cream

- It looks like a can of whipped cream or a desert topping, but is infused with alcohol
- At 15% alcohol it is 30 proof
- Per volume it has about 3 times the amount of alcohol found in beer
- Youth who abuse nitrous oxide (huffing) can combine their inhalant use with the alcohol content all from the same product
- It doesn't taste like alcohol....more like a harmless treat
- It is marketed as cream, but does not require any refrigeration
- It is not available in the state of Pennsylvania. However, it is available in some states that border ours. So if you have relatives coming to visit for the holidays, please be alert to what they may bring into your home. Children would not recognize this product as being any different than normal whipped cream.

If you have questions, please contact Patty Karn, Prevention Supervisor at The Blair County Drug and Alcohol Program, Inc. 814-381-0921, pkarn@blairdap.org
